THURSDAY, FEB. 27,1879

THERE is one excellent bill before the present General Assembly, with a fair prospect that it will become a law. We mean the bill against the public execution of criminals convicted of a capital offense. We have opposed these barbarous exhibitions ever since we have had a voice through the public press. On the part of the morbidly curious there is a fascination about seeing a fellow mortal hung, that always attracts large crowds. Such exhibitions are, to our minds, a sickening commentary on our civilization, and it is a fit subject for the consideration of our law-makers. We congratulate the Legislature upon having taken up this matter. We trust there will be early and favorable action, and that the days for "free shows" of this character are at an end.

Mr. GLOVER has discovered a new way to extract information from a recalcitrant witness, which we would respectfully recommend to our Legislative chairmen. A few days ago he had on the stand an employe of the Secret Service Department who did not answer to suit him; Mr. Glover got slightly angry and gave the witness a free evitable now, as the dilatory action of show of "chin-music." W. said some of the Democrate to the fate of the approhe was no "snide," or words to priation bills. He added that he could that effect, and couldn't be bulldozed. Mr. G. thereupon seized him by the throat, or attempted to do so, and a nice little variety entertainment went on for a short time, but the referee declared a "foul" and stopped the fight.

There is something peculiarly grand and beautiful in the Democratic investigator's conduct. has such a remarkable similarity to upon a time. their favorite manner of obtaining votes. Of course a Democratic member of Congress has no conception of dignity that would in any way interfere with his rule of action. A free fight in a committee room of the Congress of the great American nation must present a grand ap-

OBSOLETE QUESTIONS.

An exchange asks the following pertinent inquiry:

Why shall the man whose son must given them. leave school at the age of twelve to earn his living be taxed to muintain a school for the boy whose father can do pelled to sustain a school in which his neighbor may educate his children at the cost of the State, and put the tuition fee thus saved into his pocket?

We clip the foregoing from the they once were. These inquiries out. embrace the effete objections once urged against free schools. The enough of this world's goods to render general off-red \$500 in gold for his himself and his family independent, or he who has inherited a fortune, is under no obligation to educate the child of his less industrious, less globe five times. of the world, ever since civilization had an existence, demonstrates that intelligence is the basis of power in every Government, and more especially in a Republican Government. The rich man's property is worth more, if located in an educated community, than it is in a community where ignorance prevails. Ignorance generates vice, and it costs less to educate a dozen boys than it does to keep one in a jail or penitentiary. So, if the question is considered from only a selfish standpoint, the weight of reason is in favor of educating the children of the poor at the expense of those who are better off. As a mere question of dollars and cents, it is money in the rich man's pocket, to assist in the education of his poorer neighbor's children. But there is a higher considera-

tion-that of humanity. Men do not live for themselves alone. One of the wisest provisions in the Divine economy, has planted in men a desire for society. Every man seeks association with some 500 Cases Kip Brogans, man. This principle grows stronger | 500 Cares Calf Brogans. as civilization increases. All these operate as an incentive to every citizen, to every patriot, and every 500 Cases Men's Hats. Christian to labor for the good of all. But we are persuaded that argument on these questions is superfluous. The number of people who believe that there is any injustice in taxing a man who is able to educate his children to help educate the children of his neighbor who is not able to send them to school, is exceedingly small and becoming smaller every year.

ONE of these days people will be inquiring who is responsible for the expense of an extra session of Congress growing out of the partisan legislation which Democrats are attempting to tack on to appropriation bills. When such inquiries are made, the following Washington special dispatch to the Cincinnati Gazette will be a good thing to re-

"Mr. Atkins, Chairman of the House Appropriation Committee, on being asked as to the preprets of an extra session, said that he considered it insome of the Democrats had made him no more tell what the ation of his party would be than he could state what would occur in Kamschatka to-

KNOXVILLE CHRONICLE FOR 1879.

Subscrib for a Good, Reliable News

The DAILY CHRONICLE, WEEKLY WHIG AND CHRONICLE will be kept up during the year 1879 to their usual high standard. By enterprise, accurateness, and close attention to the wants of our uation of the liberal patronage heretofore extended these journals.

Nearly nine years ago, when there was not a Republican daily in the State, and only two or three in the South, we commenced the pubings, Osuaburgs, Drills, Shirt- lication of the Chronicle. In all these years we have battled for Republican principles, and see no reason to change our course now. Hence we shall continue to publish a truthful, reliable Republican journal, not the organ of any man or clique, but the outspoken and fearless advocate of principles, measures and men, best calculated to promote the welfare of the country and the Republican party.

We will endeavor to make our agricultural columns worth more to farmers than our subscription price. As a newspaper our publications shall not be excelled in the State. In addition to our telegraphic dispatches from all parts of the world, our readers shall have the benefit of correspondence and every other means through which reliable infor-

mation is obtained, Each number of the paper will contain selections made with special reference to the home circle. We will continue to avoid everything calculated to contaminate, and will publish a paper that may be taken without question within the sacred

precints of the family circle. Our market reports shall have close attention, and be made entirely correct and reliable.

We call upon all persons interested in the publication of our independent, fearless, reliable Republican journal to come to our aid and assist in extending the circulation of the DAILY CHRONICLE and WEEKLY WHIG AND CHRONICLE.

In view of the financial pressure upon the country and the general reduction of values, we have decided to reduce the price of the WEEKLQ WHIG AND CHRONICLE to suit the times. In the future we will send our weekly paper to subscribers on the following .

One copy one year.....\$1 50 six months...... 1.00

To any person who will send us a club of ten subscribers with the cash, \$15.00, we will send one copy extra. Payment will be required invariably in advance.
